Entrepreneurship ♦ Education ♦ Community

*Kick-start your career with Ekuinas' **ILTIZAM** Professional Development Programme*

Ekuiti Nasional Berhad, or Ekuinas, is a private equity fund management company established by the Government of Malaysia to promote equitable and sustainable Bumiputera wealth creation and economic participation based on the principles of market-friendliness, merit and transparency via the creation of Malaysia's next generation of leading companies.

About Ekuinas' CSR Programme

True to its theme of Realising Potential, Ekuinas' CSR programme, named ILTIZAM, aims to empower and directly impact the Bumiputera community in a sustainable manner, specifically focusing on three pillars - Entrepreneurship, Education and Community. The objectives of ILTIZAM's initiatives are aligned with Ekuinas' overall mission and CSR guiding principles, which are to empower genuine Bumiputera entrepreneurs and directly impact the Bumiputera community.

Education has been and continues to be the catalyst for social and economic empowerment in communities. It is a fundamental right of an individual and a necessity for any country to develop and thrive. It is therefore, our responsibility to build human capital and upskill our youth in preparation of the rapidly evolving digital and new economy. ILTIZAM's education pillar specifically looks to cater to individuals through a clear and structured path.

ILTIZAM Professional Development Programme (PDP)

The ILTIZAM Professional Development Programme (PDP) was formulated to provide on-the-job work experience for unemployed or underemployed Bumiputera graduates from low income families. Through this programme, they are given the opportunity to learn and develop professional skills in a structured and professional manner so they become highly marketable and employable. The programme positioned itself as a capacity building initiative that provides Bumiputera graduates the skills, capabilities and experience before they enter the workforce.
